

Montrose PORT AUTHORITY

KEY FACTS: RENEWABLES

AN INTRODUCTION TO MONTROSE PORT

Trusted by the biggest names in the energy, transport and logistics industries, we pride ourselves on being the link in the chain you can always rely on.

With a central location in one of the most scenic parts of Scotland, strong transport connections and responsive, flexible operations, Montrose Port is your gateway to the North Sea.

Being a dynamic, small team we frequently collaborate with port users and can streamline activities faster, with direct lines of communication to decision makers.

WE ARE A TRUST PORT

All profits are reinvested back into upgrading the port infrastructure, allowing us to remain competitive, as well as supporting our local area.

8x
ELECTRIC VEHICLE CHARGING PORTS AVAILABLE FOR PORT USERS

ECOPORTS
MEMBER

PORT POWERED BY
100%
GREEN ENERGY SUPPLIERS

DESIGN AND CONSTRUCTION OF THEIR OPERATIONS & MAINTENANCE BASE

We are extremely adaptable and with permitted development rights on our estate we are able to easily adapt our assets.

We designed and constructed Seagreen's O&M base, and were proud of the opportunity to contribute to the circular economy using recycled steel in its construction, along with repurposing their communication mast, saving a combined total of 127 tonnes of CO₂.
